At Sophisticated Storage Solutions, we bring order to your lifestyle with our in-home, personalized consultation and design.

Closets — Designing the “just right” closet system means more than just dimension, it’s ball gowns to golf shirts and slippers to hiking boots — it’s the way you live.

Mudrooms — Coming or going — this space is just what you need. Jackets, hats, backpacks are ready when you are.

Laundry Rooms — Rescue your laundry room with a variety of adjustable shelves, cabinets, and a place for the drip dries.

Pantries — We bring organization to any pantry, double or even triple your pantry storage — always visible, always accessible.

Garages — Transform your garage to a place for everything, including the car. Our designs incorporate durable storage systems that are as varied as your needs — functional, clean and affordable.

Media Centers — No more monster TV cabinets — fit your flat screen TV in among your favorite books and *objets d’art* — add open or closed storage for components and media.

Home Offices — From taking over a corner of a room and preventing “mess overload,” to organizing a thriving in-home business in the attic, basement or spare room, our experts will help you be more productive and put everything you need at your fingertips.
